Conflict Mineral Declaration

Unpopulated printed circuit boards

Based upon currently available information, **Newbury Electronics Ltd** does not process any conflict minerals (Tin, Tantalum, Tungsten, or Gold) originated in the Democratic Republic of the Congo (DRC) or its adjoining countries in the manufacture of unpopulated printed circuit boards.

Populated printed circuit boards

Component distributors are currently surveying their supply chains and report that they have no confirmed instances of "conflict mineral" usage in the components supplied to Newbury Electronics Ltd.
