NewburyGroup

The Complete CEM

Your End-to-End Service for Everything Electronic

- Product development and electronic design
- Printed Circuit Board manufacture & supply
- PCB CAD layout
- Contract electronic manufacture
- SMD Assembly
- Component procurement
- Laser cut solder paste stencils
- Conformal coating
- Testing (inc. EMC and ageing) & Certification
- Comprehensive technical support

NewburyGroup
The Complete CEM

PCB Fabrication

Newbury Electronics Ltd, Faraday Road, Newbury, Berkshire RG14 2AD UK
t +44 (0) 1635 40347 e sales@newburyelectronics.co.uk

Contract Electronic Manufacture

Newbury Electronics Ltd, Ampere Road, Newbury, Berkshire RG14 2DQ UK

Power

40,000 sq ft secured access premises

◆ **Shorter development cycles**
Ideal for prototyping, dramatically accelerate your R&D and get your products to market faster

◆ **70 years' experience**
We've built-up an excellent reputation working with Autosport, Power Electronics, Photonics, Medical, Aerospace and Defence industries

◆ **Single sovereign source**
PCB manufacture and electronic assembly supported by comprehensive electronic design capability all from one UK owned company. No project hand-over friction. Complete data, facility and personnel security

1-Day turnaround circuit boards

Order
before 9am to

◆ **Wide variety of industries**
Electronics design from concept to manufacture, for clients in industrial sectors and commercial FMCG, right through to medical, aerospace, military and all regulated industries

◆ **In-house manufacturing**
Working alongside our own in-house production facilities to design and build your products to perfection

◆ **Expertise and services**
Product and software development, electronics design, reverse engineering, apps, cloud, certification, and regulation. Extensive lab resources, compliance, EMC, thermal and conducted immunity testing. Complex mechanical design

Initial
Enquiries
to:

◆ **Ideal for prototype PCBs**
Our express service permits rapid prototyping of your design at the bench-top test stage

◆ **Express laser stencil service**
Making it easy and affordable to use solder paste stencils for manufacturing prototype and small batch production electronic assemblies

◆ **Conformal coating**
Interested in protecting your boards from external factors? We offer a fast-turnaround sub-contract conformal coating service
